Nursing Skills Refresher Workshop

Program Description
Are you changing practice settings, or reentering nursing and looking for an update in your basic nursing skills? Nursing Skills Refresher Workshop will provide you the benefit of hands-on review and practice of common acute care nursing skills. This course builds your confidence in the skills needed to work in an adult skilled nursing or basic medical/surgical care setting. The goal of this class is to update your knowledge, practice the skills, and develop confidence in the processes. Return demonstration is a requirement of all participants.

Outline
Injections, Insulin Management, Injection Sites, Glucometer
Vital Signs, Manual BP, Documentation
Sterile Techniques, Urinary Catheterization
NG and Feeding Tube Care
Oxygen Therapy and Pulse Oximetry
