

Health Care Team Leader Certificate

Program Description

Being a front-line leader as a charge nurse, team leader, or team supervisor often challenges our skills of working with others. The Health Care Team Leader Certificate program focuses on unlocking your awareness of how your personality traits play a role in your interactions with others. Learn how to adapt your style of communication and delegation to effectively motivate others to accomplish common work goals. Earning a certificate as a Health Care Team Leader will prepare you for all types of front-line team leadership positions.

Outline

Your Self-Assessment
Personal Growth Strategies
Expectations as the Leader
Communication for Leadership
Building Effective Team Strategies
Self-Management and Care
